# In stock	Number	Title	Discounted Price
5	104	Electronics for Non-Electrical Engineers	US \$ 75.00
2	104-5	Electronics for Non EEs + Digital Electronics	\$ 110.00
1	105	Digital Electronics	\$ 75.00
1	108	Mechanical & Structural Theory	\$ 75.00
4	116	Fundamentals of Vibration for Test Applications	\$ 110.00
3	130	Metrology Concepts	\$ 75.00
4	131	Calibration Laboratory Options	\$ 75.00
2	132	Measurement Uncertainty	\$ 75.00
1	134	Calibration Laboratory Management	\$ 75.00
1	139	Understanding ISO 17025	\$ 75.00
3	142-2	Mechanical Shock Techniques	\$ 75.00
2	142/195	Mechanical Shock & Modal Test Techniques	\$ 150.00
1	157-3	Fixture Design (on-site version, single volume)	\$ 75.00
1	157-5	Fixture Design	\$ 110.00
3	161	Grounding and Shielding for EMI/EMC/ESC	\$ 110.00
2	162	Test Procedures for EMI/EMC/ESC	\$ 75.00
3	163	Instrumentation for Test & Measurement	\$ 110.00
1	164	Electrical Instrumentation for Test & Measurements	\$ 110.00
2	166	Applied Measurements	\$ 75.00
4	166/164	Electrical Instrumentation for Appl Measurements	\$ 110.00
2	171	Telemetry Systems	\$ 110.00
1	194	Vibration and Shock Test Control Techniques	\$ 75.00
7	195	Modal Analysis for Structural Validation	\$ 75.00
3	196	Digital Data Acquisition	\$ 110.00
3	197	Digital Signal Processing and Data Analysis	\$ 110.00
3	199	DSP: Digital Signal Processing	\$ 75.00
2	230	Climatic Test Techniques	\$ 110.00
3	240	Accelerated Testing: ESS,HALT and HASS	\$ 75.00
1	310	Mechanical Design for Product Reliability	\$ 110.00
1	419	Ethics	\$ 50.00
5	425	Environmental Testing Procedures	\$ 110.00
2	435	Engineering Statistics	\$ 50.00
2	450	Environmental Test Specifications	\$ 75.00
4	451	Understanding MIL-STD-810	\$ 110.00
3	471	Cooling Methods for Electronics Design	\$ 75.00
2	472	Printed Circuit Board Design, Manufacturing and Testing	\$ 75.00
2	D116	Self-Study Workbook to accompany course 116	\$ 25.00
1	820	Theory and Practical Application of Pump Technology	\$ 50.00
1	825	Theory and Practical Application of Valve Technology	\$ 50.00
